# Designing Buildings for A Zero Waste Hong Kong

8 December 2020 (Tuesday), 9:30a.m. – 11:00a.m

In a high-density vertical city, building design plays a large role in reducing waste. Architects in New York City led the development of [Zero Waste Design Guidelines](#) for new and existing buildings to help the city reduce waste. Now leaders in sustainable design from Hong Kong, Singapore and NYC are collaborating to share design strategies, case studies and policy suggestions that can help high density cities reach zero waste goals. Come hear architect Ms Clare Miflin, who led the NYC process, in discussion with leaders of sustainable design in Hong Kong, as we begin this collaborative project.

## SPEAKERS

**Amie Lai**

Senior Sustainable Development  
Manager, Swire Properties

**Cary Chan**

Executive Director, Hong  
Kong Green Building Council

**Fiona Sykes**

Associate, Arup

## KEYNOTE SPEAKER

**Clare Miflin**

Founder, Center for Zero Waste Design

**Jackie Luk**
