Dear HKWMA Members,

HKWMA - YOUNG MEMBERS CHAPTER (YMC) would like to invite you to join our technical visit to WEEE·PARK (Waste Electrical and Electronic Equipment Treatment and Recycling Facility) on **14 July 2018** (Saturday).

Please note that the visit will be conducted **in English and/or Cantonese**. For more details, please see the itinerary below.

Please mark the date and send us your reply to ymc@hongkongwma.org.hk no later than **30 June 2018 (Saturday)**. We can only accommodate **25 people** in this event, so act quickly!

Each applicant is required to pay **\$100 deposit for the registration**. As this function is free for HKWMA members, members will receive the refund of the deposit at the day of visit. In case of any withdrawal of registration, please notify us by email at least 3 days (i.e. by 12:00pm on 11 July 2018) before the event. Otherwise, the deposit will not be refunded.

Please kindly pay **in advance** to HSBC Account no.: 404-625600-833 (Account holder: Chan K. H.) and email us a copy of your receipt when you register **no later than 30 June, 2018 (Saturday)**. We will send you a confirmation email if you have been successfully signed up. However, if you could not be signed up, your payment will be fully reimbursed.

CPD certificates in electronic form will be delivered via email to the participants after the visit.

If you have any queries, feel free to contact us via e-mail ymc@hongkongwma.org.hk.

Many thanks!

Programme Highlight

The Waste Electrical and Electronic Equipment Treatment and Recycling Facility (WEEETRF), located in the EcoPark in Tuen Mun, is a state-of-the-art e-waste treatment and recycling facility in Asia. It was developed in parallel with the producer responsibility scheme (PRS) on WEEE for better management of e-waste generated in Hong Kong. The WEEETRF is a three-hectare site with a capacity of handling 30 000 tonnes of WEEE annually, which can be increased if needed to meet the demand for treatment services. The facility is able to process refrigerators, TVs, computers, washing machines and air conditioners into valuable secondary raw materials while managing the hazardous materials in a safe and environmental manner.
