

Technical Seminar: Debriefing Session for Waste Management Study Trip to South Korea

Organised by HKIE-EVD and HKWMA

Date, Assembly Time & Place

17th July 2018, 18:30, HKIE HQ Sophie Chan Room

Programme Highlights:-

A waste management study mission to South Korea was organized from 12 to 15 June 2018. The objective of the mission was to study the waste management and engineering technologies applied in South Korea. Various waste management facilities were visited, including an automated refuse collection site, a waste sorting site with RFID smart bin system, a plastic recycling plant, and a landfill. Great exchanges were made with the government of South Korea and local waste management association regarding their waste management development and challenges. The participants of the trip, including members from both HKIE-EVD and HKWMA, will provide their insights and feedback on the trip.

Speaker

Mr. Jude Chow, is the Group Managing Director of Associated Engineers, Limited. He has extensive experience in multiple platforms of engineering projects prior to joining AEL. After joining AEL Jude has led the company to sustainable growth with internal and external initiative, of which one of his accomplishments was actively developing waste related business for technology co-operation and development. Jude also serves as the Chairman of HKWMA, Vice Chairman of FHKI's Group 26 Environmental Industries, Chairman of CityU DBA Community, Vice President of HKEnvIA, Vice Convener and Committee Member of HKGSA, Committee Member of CAUES, Member of Engineers Australia and Project Management Committee of HK Government Cleaner Production Partnership Program.

Ir Dr. Anthony Ma is the Deputy General Manager in Environmental Management Division of the Hong Kong Productivity Council (HKPC). He has about 30 years of professional experience in water management and waste recycling. He is in charge of the Environmental Technology and Solution (ETS) Centre and the Environment and Product Innovation (EPI) Laboratory, and is leading a professional team for environmental research and engineering consultancy in HKPC. Dr. Ma is the advisor

of the World Green Organization (WGO) and the Chartered Institute of Plumbing and Heating Engineering (CIPHE - HK Branch). He is invited by the government to serve in a number of committees and technical boards.

Registration & Enquiries

The seminar is free of charge with maximum of participants of 80. For registration, please complete the online enrollment form in EV Division website (<http://ev.hkie.org.hk/>). Successful applicants will be notified before the event. For enquiries, please contact Mr Norman Cheng at 94676833. Attendance certificate will be awarded after seminar.
