## MEET OUR SPEAKERS

### **JULIAN HYDE, GENERAL MANAGER OF REEF CHECK MALAYSIA**

Julian Hyde is British, but has been living overseas since 1992. He is a scientist by training, with a degree in biochemistry. He worked for several years as a management consultant, including six years in Russia managing a variety of environmental consulting programmes. He moved to Malaysia in 1999, initially managing an environmental consulting company in KL before moving to Tionman Island to pursue his dream to run a dive centre, which he did for six years. During which he became interested in Reef Check. In 2006 he moved back to KL and was involved in a project to establish a sustainable Reef Check centre in Malaysia. Since then he has continued to raise funds for the organisation and to develop its programmes which now include a national annual coral reef survey programme, education programmes for schools, community-based projects and reef rehabilitation programmes. 2019 marks 12 years of operations for RCM. During that time the annual survey programme has grown to cover over 200 sites, and RCM has established close relationships with relevant government agencies involved in reef management. In particular, it is helping Marine Park management agencies to change their approach to managing marine protected areas, with more emphasis on community engagement and participation.
